

# TOP TIPS FOR BEING IN THE LAB

This is a self-directed space, so...

- . Make good things - arts, crafts and conversations
- . Only use equipment you know how to use properly
- . Stuff down low is free to have a go, stuff in the air should probably stay there!
- . Hang up your coat, relax and put your bag away
- . Help yourself to a cup of tea, glass of water and a biscuit, try not to spill
- . Please tidy up after yourself for everyone else
- . Help those who could use a little assistance
- . If you have a question, please come find a Afri-Co-Lab Teamiee
- . Help us keep the space welcoming with love and care
- . Everything has its home, make sure it makes it back there safely
- . Let us know if something is amiss
